HOW TO CHOOSE THE RIGHT PLACE FOR THE HOUSE:

Wooden house have to be place on the solid, stabile surface. It has to be placed in safe distance more than 2 meters from the obstacles like: barriers, garages, buildings, trees branches, drawstring laundries, telephonic cables. Product cannot be placed on the surface like concrete, asphalt and similar.

SURFACE PREPARATION:

If the place is finally chosen, it is necessary to prepare the base the house will be placed. Removing from the area catching elements like plants, rubble and others. Then whole surface has to be flattened.

ASSEMBLE:

Estimated time of assemble is one day by 2 persons. Before starting to assemble the house the builders should prepare tools like drill, electric driver, hammer and measure. Before starting the work it is necessary to get familiar with the list of elements and drawings in the manual. House have to be assemble according to the steps given in the manual.

USE & MAINTENANCE

All wooden elements of the house is high pressure impregnated which is the most effective method of wood conservation. Impregnation penetrates deep in the wood and preserve it against insects and mold. Anyway, it is important to remember that wood is a natural product which works and changing shape with the time flow. After some time wood can change the colour. It is natural process which do not week the product.

ENVIROMENT PROTECTION

Packing material has to be selected and segregated and throw to proper container. In situation that the product is out of usage and have to be destroyed, metal elements have to be removed and throw to prober container. Painted, impregnated, lacquered wood cannot be burned.

RESPONSIBILITY

Producer does not take the responsibility for product which was not assemble according to the manual. Producer do not take responsibility for improper usage of the house. Product is intended for private, home usage. Using it in commercial purpose and for public playground is prohibited.

GUARANTEE:

Product was designed for children. Wooden elements have 10 years guarantee. Guarantee covers protection of the wood against insects, mold but not cover natural processes which cause the wood deformation what can cause weakening of the construction. Below process are natural and cannot be claim: contraction of the wood which can cause small slots, colour changing. Guarantee covers only exchanges of valid elements.
